The role of our registered nurses (RNs) is to answer your medical questions or concerns, offer home care tips, or help you decide if your child needs to be seen in clinic. After speaking with you, if necessary, they will consult with your primary care provider and call you back.

During clinic hours, our registered nurses are available for consultation. For after-clinic-hour concerns, RNs from the Children's Health Network (associated with Children's Minnesota) are available. These nurses will answer your questions or, if necessary, put you in contact with a Wayzata Children's Clinic pediatrician who is on-call seven days a week, 24 hours a day. For life-threatening emergencies, please dial 911.

Please contact us with any questions, we're always  
happy to hear from our patient families!
