

# Lactation Support Services

We are pleased to offer lactation services in the privacy and comfort of our clinics. We are dedicated to providing the highest quality breastfeeding education and support through the entire breastfeeding journey.

Our visits allow mothers to do an entire feed in the office with attention to pre and post feeding weights to determine how much baby is drinking. Our lactation staff work closely with mother and baby to provide personal and specialized support to make for a positive breastfeeding experience.

## Meet Our Lactation Specialists!

**Meghan Green**  
MSN, CPNP-PC, CBS

**Mara Liss**  
MD, CLC

**Lyndsi Paumen**  
MD, CLC

## Our services include:

- Guidance through the initiation of breastfeeding and feeding routines
- Latching issues and techniques
- Milk supply concerns
- Returning to work and pumping

Please contact us with any questions, we're always happy to hear from our patient families!
